## EXPERIENCE

### Member of Technical Staff

May 2026 – Present

*SurveySparrow (SparrowCRM)*

Chennai

- Completed the end-to-end import processing system, integrating batch processing with a UI for users to identify and resolve import errors
- Built high-throughput import workflows processing **10,000 records in 15–20 seconds**
- Investigated and resolved production Kafka incidents, reducing consumer lag and improving message-processing reliability
- Architected position and processing workflows end to end for the **Lead Routing** feature

### Product Developer Intern

Mar 2026 – May 2026

*SurveySparrow (SparrowCRM)*

Chennai

- Designed the backend workflow for batch import processing, covering ingestion, processing, error handling, and persistence
- Worked with **Kafka, ClickHouse, and PostgreSQL** to build the import processing architecture
- Developed foundational components of the import pipeline that were later extended into the end-to-end production workflow

### DevOps Engineer Intern

Nov 2025 – Feb 2026

*SurveySparrow*

Chennai

- Set up pipelines for managing secrets via **HashiCorp Vault**, enabling developers to update secrets across environments with minimal operational overhead
- Debugged and maintained CI/CD pipelines, resolving deployment and infrastructure issues for development teams
- Supported DevOps operations including **AMI creation**, infrastructure troubleshooting, and deployment workflows

### AI Engineer Intern

Jun 2025 – Jul 2025

*Greatify*

Chennai

- Applied supervised fine-tuning using OpenAI API, Vertex AI, HuggingFace, and LLaMA Factory
- Fine-tuned quantized LLaMA 3 8B using 4-bit LoRA for rubric-based answer evaluation
- Developed and deployed Django and vLLM APIs for model inference

## EDUCATION

### B.S. Abdur Rahman Crescent Institute of Science and Technology

Oct. 2022 – 2026

*Bachelor of Technology in Computer Science and Engineering*

CGPA: 9.24

### Indian Institute of Technology Madras

Sep. 2022 – Sep. 2026

*Diploma in Data Science and Programming*

CGPA: 8.22

## PROJECTS

### AI Evaluation API System | Django, Python, OpenAI, vLLM, Cloudflare

Jul 2025

- Developed a secure Django API with API-key authentication, SHA256 request validation, and activity logging
- Implemented dynamic subdomain routing with database switching to serve fine-tuned LLaMA 3 and GPT models
- Built a Streamlit-based tester for model selection, live API queries, and response visualization

### PDFChat – RAG-based PDF QA Web App | Python, LangChain, Streamlit

Nov 2024

- Developed a retrieval-augmented generation application for querying large PDF documents using LLMs and vector embeddings
- Integrated Mistral 7B with Cohere embeddings and built an interactive Streamlit interface for document-based question answering

## TECHNICAL SKILLS

**Languages:** Python, Java, C/C++, JavaScript, SQL, Bash, Golang

**Databases & Messaging:** PostgreSQL, ClickHouse, SQLite, Apache Kafka

**DevOps & Infrastructure:** Linux, Git, Docker, Kubernetes, HashiCorp Vault, Jenkins, Grafana, AWS

**Frameworks & Libraries:** Django, Flask, React, NestJS, React Flow, HuggingFace
